**Vince** - Michael O’brien - 1989-09-20

Published to widespread critical acclaim, Vince has been called: “the definitive biography” of an American legend.
A must-read for leaders worldwide. This vital resource will empower managers everywhere to inspire a new level of commitment and performance. To have any hope of succeeding as a manager, you need to get your people all in. Whether you manage the smallest of teams or a multi-continent organization, you are the owner of a work culture—congratulations—and few things will have a bigger impact on your performance than getting your people to buy into your ideas and your cause and to believe what they do matters. Bestselling authors of The Carrot Principle and The Orange Revolution, Adrian Gostick and Chester Elton return to answer the most overlooked leadership questions of our day: Why are some managers able to get their employees to commit wholeheartedly to their culture and give extra push that leads to outstanding results? And how can managers at any level build and sustain a profitable, vibrant work-group culture of their own? These leadership workplace experts teamed up with research giant Towers Watson to analyze an unprecedented 300,000-person study, and they made a groundbreaking finding: managers of the highest-performing work groups create a “culture of belief.” In these distinctive workplaces, people believe in their leaders and in the company’s vision, values, and goals. Employees are not only engaged but also energized (termed the three Es), which leads to astonishing results—average annual revenues three times higher than for organizations lacking such a positive culture. And this was true during a period that included this most recent recession. Based on their extensive consulting experience and in-depth interviews with leaders and employees at exceptional companies such as American Express, Cigna, Avis Budget, Pepsi Bottling, and Hard Rock, the authors present a simple seven-step roadmap for creating a culture of belief: define a burning platform; create a customer focus; develop agility; share everything; partner with your talent; root for each other; and establish clear accountability. Delving into specific how-tos for each step, they share eye-opening stories of exceptional leaders in action, vividly depicting just how these powerful methods can be implemented by any manager. All In for leaders worldwide. This vital resource will empower managers everywhere to inspire a new level of commitment and performance.

The Power of Nice - Linda Kaplan Thaler - 2006-09-19

Linda Kaplan Thaler and Robin Koval have moved to the top of the advertising industry by following a simple but powerful philosophy: it pays to be nice. Where so many companies encourage a dog eat dog mentality, the Kaplan Thaler Group has succeeded through chocolate and flowers. In THE POWER OF NICE, through their own experiences and the stories of other people and businesses, they demonstrate why, contrary to conventional wisdom, nice people finish first. Turning the well-known adage of "Nice Guys Finish Last" on its ear, THE POWER OF NICE shows that "nice" companies have lower employee turnover, lower recruitment costs, and higher productivity. Nice people live longer, are healthier, and make more money. In today's interconnected world, companies and people with a reputation for cooperation and fair play forge the kind of relationships that lead to bigger and better opportunities, both in business and in life. But being nice doesn't mean acting wimpy. In fact, nice may be the toughest four-letter word you'll ever encounter. Kaplan Thaler and Koval illustrate the surprising power of nice with an array of real-life examples from the business arena as well as from their personal lives.

Most important, they present a plan of action covering everything from creating a positive impression to sweetening the pot to turning enemies into allies. Filled with inspiration and suggestions on how to supercharge your career and expand your reach in the workplace, THE POWER OF NICE will transform how you live and work.

The Bet - Anton Chekhov - 2017-02-18
The Bet is a short story by Anton Chekhov about a banker and a young lawyer who make a bet with each other about whether the death penalty is better or worse than life in prison. The story has a twist ending. Plot: As the story opens, the banker recalls the occasion of the bet fifteen years before. Guests at the party that he was hosting that day fell into a discussion of capital punishment; the banker argued that capital punishment is more humane than life imprisonment, while the young lawyer disagreed, believing that the death penalty was more humane than life imprisonment. The lawyer then suggested a bet to decide which was the better punishment. The banker accepted the bet and offered to spend fifteen years in solitary confinement if the lawyer believed that capital punishment was better than life imprisonment. The lawyer accepted the bet and spent fifteen years in solitary confinement. When the lawyer was released, he was met by the banker, who had spent fifteen years in solitary confinement. The lawyer then presented the banker with a choice: either spend the next fifteen years in solitary confinement or return the bet. The banker chose to return the bet, and the lawyer was released.

Theaters of Anatomy - Cynthia Klestinec - 2011-08-15
The anatomy theater is where students of the human body learn to isolate structures in decaying remains, scrutinize their parts, and assess their importance. Taking a new look at the history of anatomy, the author places public dissections alongside private ones to show how the anatomical theater was both a space of philosophical learning and a place where students learned to behave in a civil manner towards their teachers, their peers, and the corpse.
